

I pay for XM just like I do Cable and I don't think you should have the right to tell me that if I want to pay for something I want to listen to that I can't have it. As long as what I am listening to is payed for by me and I have a choice of wheather or not I want to keep listening and paying I should be able to get any station they want to offer me. Also if they offer it and I don't want to hear it I will either not listen to it or take it up with XM. That an option that I think some of the governing partys have forgotten in the US if you don't like something that is an optional service that you have to pay for don't get it and leave those of us alone to listen to ours on our on.

Thank You
